

KPMG Tax Services

Location Analysis

Scoops Inc. has two locations, but they are growing. Where should they locate next? They need to consider factors such as new market opportunities, rising labor costs, transportation access, real estate costs, and availability of employees for their stores. KPMG provides analysis of locations and physical sites to provide the necessary information to make the ultimate decision for relocation or expansion.

Tax Credits

Nearly all states offer some form of tax credits such as offsetting income/franchise taxes or other taxes for capital investment, job creation, employee training, research and development activities, and more. KPMG has many years of experience in the federal and state tax credit environment and can help to identify federal and state credits to help lower Scoops Inc.'s tax bill. *Fun fact: did you know in South Carolina, completing a premarital preparation course within 12 months of getting your marriage license makes couples eligible for [a \\$50 tax credit!](#)*

Compliance - Federal and State

Compliance means the process of filing tax returns for Scoops Inc. Rather than take the time of Scoops Inc.'s personnel to prepare tax returns, KPMG professionals can prepare these returns (such as state income tax estimates, extensions, federal tax returns, and amended returns).

Tax Controversy

Scoops Inc. does its best to correctly file and pay its taxes. However, tax controversies may arise. These are situations like the IRS auditing Scoops Inc.'s tax returns and finding Scoops Inc. should pay more tax, while Scoops Inc. might not agree.

Accounting Methods and Credits

Since KPMG did a great job it inventories planning, what about tax planning for other areas such as tax depreciation, or tax accounting methods?
